EDUCATION

- | | |
|---|----------------------------|
| Carnegie Mellon University | Pittsburgh, PA |
| • <i>PhD Candidate in Electrical and Computer Engineering; GPA: 4.00/4.00</i> | <i>Aug 2019 – Present</i> |
| <i>Advisors: Prof. Swarun Kumar and Prof. Bob Iannucci</i> | |
| Indian Institute of Technology, Kharagpur | Kharagpur, India |
| • <i>M. Tech. and B. Tech. (Honors) in Electronics and Electrical Communication Engineering</i> | <i>Jul 2014 – May 2019</i> |
| <i>Advisors: Prof. Gautam Saha</i> | |

RESEARCH PROJECTS:

- | | |
|---|----------------------------|
| OwLL: Accurate LoRa Localization | Carnegie Mellon University |
| • <i>Prof. Swarun Kumar and Prof. Bob Iannucci</i> | <i>Jul 2020 - Oct 2020</i> |
| <ul style="list-style-type: none">◦ Developed an accurate LoRa based outdoor localization system which performs localization by frequency hopping in ISM and TV whitespace bands◦ Ensured low power consumption by developing a smart frequency selection algorithm to minimize the number of frequencies hopped◦ Obtained an overall 9 m median error in both Line of Sight and Non-Line of Sight situations tested across an area of 66000 sq.m | |
| Does Ambient RF Energy Suffice to Power Battery-free IoT? | Carnegie Mellon University |
| • <i>Prof. Swarun Kumar and Prof. Bob Iannucci</i> | <i>May 2020</i> |
| <ul style="list-style-type: none">◦ Performed a simulated study to determine if ambient RF energy is enough to power RF backscatter devices across rural and urban areas◦ Discussed some open challenges in realizing ambient backscatter systems in the real world◦ Observed that more than 95% of the overall area does not receive enough ambient power to power up a backscatter device for both urban and rural areas | |
| Relative Localization using Bluetooth Low Energy signals | University of Alberta |
| • <i>Prof. Ioanis Nikolaidis</i> | <i>May 2018 - Jul 2018</i> |
| <ul style="list-style-type: none">◦ Designed a framework with dynamically moving Bluetooth Low Energy based sensor nodes, which only used Advertising packets to transmit information and localize themselves by communicating with one another. | |
| IntuWition: WiFi based material sensing | Carnegie Mellon University |
| • <i>Prof. Swarun Kumar</i> | <i>May 2017 - Jul 2017</i> |
| <ul style="list-style-type: none">◦ Used the change in the polarization of WiFi signal on reflection with different objects to classify different materials present in the environment◦ Developed a working localization system on a drone to localize the different objects present in the environment | |

PUBLICATIONS

OwLL: Accurate LoRa Localization using the TV Whitespaces, Atul Bansal, Akshay Gadre, Vaibhav Singh, Anthony Rowe, Bob Iannucci, Swarun Kumar, *ACM/IEEE IPSN 2021*

Poster: Does Ambient RF Energy Suffice to power Battery-free IoT?, Atul Bansal, Swarun Kumar, Bob Iannucci, *ACM MobiSys 2020*

SCHOLASTIC ACHIEVEMENTS

- CMU ECE Department Recognition Award for Exemplary Qualifying Exam Performance, Fall 2021
- Awarded CIT Dean Fellowship 2019
- Kishore Vaigyanik Protsahan Yojna (KVPY) 2013-14 scholar

PROGRAMMING SKILLS

- **Languages:** C, C++, Python, MATLAB
- **Tools:** EAGLE, LTSpice, Cadence, Visual Studio, Verilog, mbed, Arduino

TEACHING EXPERIENCE

- | | |
|---|--|
| • Computer Networks | Carnegie Mellon University |
| • <i>Teaching Assistant</i> | <i>Aug 2021 - Dec 2021</i> |
| • Computer Networks | Carnegie Mellon University |
| • <i>Teaching Assistant</i> | <i>Jan 2021 - May 2021</i> |
| • Digital Signal Processing Laboratory | Indian Institute of Technology Kharagpur |
| • <i>Teaching Assistant</i> | <i>Jan 2019 - May 2019</i> |
| • Basic Electronics Laboratory | Indian Institute of Technology Kharagpur |
| • <i>Teaching Assistant</i> | <i>Jul 2018 - Nov 2018</i> |
